THE EVENT FOR THE PEOPLE MOVING BUSINESS.

19 & 20 SEPTEMBER 2017

SWISSOTEL SYDNEY

THE EXPERIENCE

As companies conduct business across increasingly diversified markets, instantaneous demand structures raise questions of conventional inventories, technologies and strategies. Supply chain networks face disruptions end to end.

The success of tomorrow's supply chains relies upon a marriage of agile foresight and intelligent complexity. Thrust to the strategic forefront, effective supply chain management has become the most critical driver of value and advantage.

The Supply Chain Forum provides insights and understanding that foster excellence in supply chain management. Immerse yourself in a world of executive expertise and supply chain best practice. This is the event for those driven to best move business.

"This year's event was the first I have attended and it will not be my last."

"Excellent speakers & a good variety in the discussions."

THE ADVANTAGE

Supply Chain Management is a diverse discipline, rich with a variety of compelling methodologies.

Successful management derives from exposure to strategies that work for you and your business.

The Supply Chain Forum offers this unrivalled opportunity, congregating the most senior supply chain executives from all sectors in our region and across the globe. The Supply Chain Forum is an event by leaders, for leaders.

BE INSPIRED

by the most distinguished minds in supply chain and logistics

GAIN

insights from the experiences of the nation's most influential organisations and executives

LEARN

lessons of exemplary management practise from high-performing teams

UNCOVER

what it takes to change the game in supply chain logistics

DETERMINE

what the future holds for your supply chain sector

NETWORK

effectively at dedicated lunches, breaks and drinks events with world-class executives

YOUR PASS

- 2 Powerful days
- Executive learning agenda
- 35+ industry speakers
- 150+ executives
- 5-Star networking environment

DEMONSTRATE LEADERSHIP

Agility, Stability and Foresight – Getting Ahead of the Curve
21st Century supply chains operate in an increasingly competitive, volatile landscape. While navigating market shocks, disruptive technology and dynamic demand, leaders must also balance immediate risk and opportunity, formulate long term strategies and coordinate closely with other internal portfolios. In markets that are prone to uncertainty, effective leadership acumen and an instinct for business become invaluable points of difference. What does excellence in supply chain management look like? What skills and insight enable an effective supply chain leader to remain at the vanguard of a rapidly changing market? In such a cluttered business climate, how important is experience, trust and institutional knowledge as a competitive edge?**MARIE VARRASSO**

Keeping things Moving- What's next for Trade Finance?**ADNAN GHANI**
Executive Director, Head of Trade Finance
Westpac Institutional Bank11:50 **Strategy Session**
Thinking Ahead - From Tactical Intensity to Strategic Complexity
Rapid and dynamic innovation has reshaped the global supply chain. Ambitious, experimental technologies and decentralised, inventory-averse business models are thriving in markets around world, presenting great opportunity for highly personalised production and distribution strategies. However, the enhanced coordination that digitalisation enables has also encouraged companies to merge and share supply chain capital. With such a plethora of strategic options, what are the hallmarks of a modern, thriving supply chain strategy? Is superiority of processes or commodities more important? Given the importance of long term strategic relationships, how best can a strategy maximise the benefit for both internal and external customers? How do we communicate the importance of strategy-focussed methods throughout leadership and management structures?**JENNIFER SCOTT-GRAY**
Head of Trade Finance Australia
Westpac Institutional Bank
JAMES EDWARDS
Co-Founder & Chief Operating Officer **Pet Circle**
DANIEL KOCHANOWICZ
Business Systems Architect – Supply Chain **Woolworths Group**12:40 **Lunch Welcome Remarks****JAMES SCOTLAND**
Supply Chain Facilitation **Ausindustry**12:45 Lunch & Networking sponsored by **Department of Industry, Innovation and Science**13:45 **Risk Session**
Balancing on the High Wire – Mediating Risk and Capitalising on Opportunity
For leading supply chain managers, risk assessment is no longer a formality, but a critical driver of success. A demand-centric market compels companies to continuously compete to provide customers with goods and services at the right time, in the right quantity and at the right cost. A supply chain manager who is too risk-averse will tempt stagnation in a dynamic climate, while a risk seeking manager can jeopardise all operations further downstream. In a market that demands customer centric, competitive solutions, how do we cultivate a healthy culture for risk within our companies? In what ways does experimentation in new structures, networks and technology mitigate risk? What impending risks threaten global, technologically-advanced supply chains, and how do we transform this risk into opportunity?**DOUG MCNICHOLL**
Value Chain Relationship Manager
Meat and Livestock Australia
JAYDEEP SOLANKI

15:15 Afternoon Refreshments & Networking

15:45 **Innovation Session**
Taming Disruption – Breaking in Barnstorming Technology
The technology intensive, 'always on' supply chain is redefining business. The frontier of innovation is busy and dynamic, where The Internet of Things, predictive analytics and collaborative robotics and sensors provide supply chain managers with more data and insight into their operations than science fiction ever envisaged. However, uprooting established structures is daunting, and innovation is about more than clever breakthroughs. There must be purpose, strategic design and practicality in our design to allow innovation to manifest as impact. Given this circumstance, what are the most transformative current technologies a supply chain manager can implement? Are there foreseeable new business models, ventures or challenges that modernisation presents, beyond its immediate implementation? What distinguishes a supply chain manager prepared to harness technological change from one who is not?**DAVID IRECKI**
Senior Solutions Consultant, Asia Pacific **Dell Boomi**
SCOTT LEYDIN

Riding the Exponential Wave of Change**KAILA COLBIN**
New Zealand Ambassador
Singularity University9:45 **Stakeholder Session**
In This Together - Competitive Interdependence

A modern, end-to-end supply chain actively engages with a diverse portfolio of stakeholders and their dynamic, at times mercurial, interests. At one end, customers may demand increased efficiency at lower costs, while at the other end the proliferation of 'Fairtrade', 'Free Range' or 'Conflict-Free' stamps reflect the appeal of virtuous consumption. This variety, although extensive, provides an opportunity for differentiation and competitive advantage. By what measures should a supply chain manager identify their key stakeholders, their value propositions and their preferences? How does diversifying a business' portfolio of stakeholders across sectors and interests strengthen the resilience of its supply chain? How do we engage stakeholders on more abstract services, such as the value of sustainability, convenience, transparency, and experience?

10:35 Morning Refreshments & Networking

11:10 **Platinum Keynote**
Developing a Customer Centric Supply Chain

Product supply chains used to be disintegrated and linear at best, providing the customer what we thought they wanted. With the adoption of the digital technologies the customer is now becoming the king and driving a new era of supply chain management. From engaging early in the product design phase through to sales and distribution channel, the customer wants to know they have the best price for the right product and that it will get delivered at the right time. During this session we will discuss how organisations are able to address the "Now" economy?

ALEX LILFORD
Manager - Transport & Logistics
Management Solutions ANZ
Oracle11:35 **International Session**
Global Citizenship: Opportunities and Obligations of Organisational Activism

Adhering to regulatory expectations, minimising environmental impacts and empowering the ethical wellbeing of employment structures is more than a charitable afterthought for leading supply chains. A supply chain manager that offers careful contemplation to the risks, obligations and opportunities of alleviating global challenges not only appeals to altruistic sensitivities, but also demonstrates the hallmarks of agile, organisational and allocative expertise. As such, what are the benefits and efficiencies of a supply chain model that is corporately and socially responsible? Implementing sustainable models may require reform of existing supply chain networks – what factors will limit this implementation? Should a manager feel responsible for the ethical approaches or environmental impacts of producers within their end to end supply chain?

13:00 Lunch & Networking

14:00 **Future Session**
The Fog on the Horizon: Future Proofing Supply Chains

There is no guarantee tomorrow will emulate today. For Supply Chain Managers, the future is steeped in opportunity, yet concurrently embroiled with uncertainty. Contemporary rhetoric warns of receding neoliberal macroeconomic trends. Nationalist political movements, protectionist policies and scepticism over impending trade deals threaten the straightforward movement of goods modern supply chains rely on. As such, how do we construct global, responsive, demand driven supply chains in a political environment that is growing weary of them? What are the impending challenges the future will deliver to global supply chains, and are there enactable measures that insulate against its unpredictability? To what extent will technology play a transformative role in transcending cultural, corporate and national boundaries? Rather than being reactionary, is there a proactive role for companies to counter isolationism and help facilitate global liberalisation?

TERMS & CONDITIONS

Delegate Package • Delegate Pass includes access to all sessions, refreshment breaks, networking lunches, networking drinks reception, and access to speaker presentations.
Please note: not all speakers choose to provide presentation papers. One delegate pass is entry for one person only, passes cannot be shared. Organiser's reserve the right to deny entry to anyone not registered.

Payment & Discounts • Payment of invoice is due within 7 days of registration. A 3% surcharge is payable for all credit card transactions. Only one promotional discount code can be applied per registrant. All prices quoted are inclusive of GST. Payment in full is required by the first day of the event. **Please note:** Registrations made within 7 days of the event can only be paid via credit card.

Organiser's Rights • Connect Media Group endeavours to ensure the conference programme and speaker line-up is correct at the time of the event. All advertised details are correct at time of publishing. Due to unforeseen circumstances Connect Media Group reserves the right to alter the programme prior to the event without notice. We also reserve the right to cancel or postpone this event when full refunds will be issued.

Connect Media Group reserves the right to deny access to any individual that engages in or is alleged to engage in practices that are considered unprofessional and inappropriate for a business conference. We reserve the right to deny access to delegates that may affect the client / vendor ratio of attendance in favour of the interests of sponsors and commercial partners of the event.

Photography & Video • Connect Media Group may take photographs and/or video of the event you are attending and in doing so your image may be included in the photographs and videos reproduced and distributed by Connect Media Group in any medium to any part of the world. By attending the event you irrevocably agree to submit your image for reproduction by Connect Media Group in distributing marketing material and/or video footage of the events. Should a delegate not agree to the above image release, they must advise: team@cmgroup.com.au

Cancellation Policy • A substitute delegate is welcome at any time provided the request is made in writing. A full refund less a \$250 (GST Inclusive) processing fee is applicable on cancellation requests made in writing within 10 days of registration. No refunds are available for cancellations made more than 10 days after registration.

Full payment is required within 7 days of registration – if payment is not received in this time and cancellation is requested more than 10 days after registration – payment is to be honoured.

Privacy Disclosure • We take your privacy seriously. Information collected on this registration will be held in the strictest of confidence on a secure database. This information may be used in order to contact you regarding future events, product development and services offered. If you do not wish to be contacted please email team@cmgroup.com.au
